Martin Joins Murphy Company as Design-Build Engineer

ST. LOUIS – Murphy Company has added Dan Martin as a design-build engineer.

In this position, Martin is responsible for producing construction documents, coordinating with other disciplines to produce CAD drafts, and completing construction drawings for the job site.

Martin's major projects include cooling tower replacement at the Tyco Plant in St. Louis; complex HVAC piping and laboratory gas systems at Washington University; and projects for FlightSafety International. He also worked on the cooling tower replacement at Barnes-Jewish Hospital in St. Peters, Mo.

Martin holds a bachelor's degree in mechanical engineering from the University of Missouri-Columbia.

Murphy Company delivers mechanical solutions to the industrial, commercial, institutional and heavy industrial markets. With corporate offices in St. Louis and Denver, Colo., and regional offices in Fairview Heights, Ill., and Colorado Springs, Colo., the firm offers process piping, HVAC, refrigeration, plumbing, design-build, piping fabrication, energy solutions and 24-hour service. Murphy currently is ranked No. 11 on Engineering News-Record's list of top mechanical contractors in the United States. Founded in 1907, the firm employs more than 1,000 people nationwide.
